## SPECS

Trail Weight	3 lbs 11 oz
Fast Pack Weight	2 lbs 7 oz
Packed Weight	4 lbs 6 oz
Number of Doors	1
Interior Area	32 sq. ft.
Vestibule Area	6 sq. ft.
Peak Height	43"
Floor Material	70D Nylon Taffeta, 1800mm
Body Material	40D Nylon Rip Stop
Fly Material	40D HT Rip Stop Nylon PU/Silicon
Poles	<b>DAC</b> Featherlite 8.55 mm

## FEATURES

- **DAC** Featherlite Poles
- Cam-Locs
- Lightweight Fly Material
- Tent Guard with Ultra Fresh
- SuperSeal Floor
- CAD Design
- Swift Clips
- Reflective Guy-outs and Zipper Pulls
- Color-Coded Webbing
- Optic White Canopy

## INNOVATIONS & FEATURES

### Featherlite Poles

- Lighter with increased strength to weight ratio
- Pole construction without inserts provides a uniform flex and disperses stress evenly

### Lightweight Fly Material

- 40-denier, 1.94 oz. High-Tenacity Nylon with a 246 thread count in a Rip-stop weave
- Silicone coating provides additional lightweight, waterproofness and UV protection
- 1500mm waterproof Polyurethane under coating allows for seam taping and is durable and waterproof 100% waterproof to 80 PSI

UNTREATED  
TENT FABRIC

TREATED with  
TENT GUARD

### Tent Guard with Ultra Fresh™

- Sierra Designs rain-fly, floor and footprint are treated with Tent Guard with UltraFresh™. A fungistatic agent that prevents the growth of a range of microorganisms that can cause odors, staining and deterioration. Tent Guard with Ultra-Fresh helps extend the life of our tents by protecting against degradation from fungus, mildew and bacteria that develop when a tent is packed and stored wet.

### SuperSeal Floor

- Combines benefits of catenary and bathtub floors
- Raised, taped, perimeter seam provides guaranteed waterproofness
- Maintains a tighter pitch with a better wind line to prevent flapping

### Computer Aided Design

- A Sierra Designs system of using Computer Aided Design to make technically superior tents
- Allows us to design tents that have a uniform distribution of stress

### Swift Clip

- Allows tent to be staked before pitching for faster, easier tent set up particularly in high winds
- Lighter and simpler than pole sleeves
- A Sierra Designs innovation

### Reflective Guy-outs and Zipper Pulls

- Makes it faster and easier to find your tent in the dark

### Color Coded Webbing

- Guides pole placement for speed and ease of set-up
- Allows for quick orientation of rain fly set up (colored coded on stake loops and on rain fly)
- Constructed of durable, lightweight nylon

### Optic White Canopy

- Transmits light more effectively to give a lighter, pleasant environment for long hours inside
