

ORIGAMI 2

3 Season

2 person

Based around a fundamental design of five equilateral triangles, it's strong, versatile and reliable. Pitch it taller for more headroom, or lower for a wider footprint. Multiple guy-out points allow customization with trekking poles. A zippered panel provides in-out access.

SPECS

- Trail Weight 2 lbs 8 oz
- Packed Weight 3 lbs 1 oz
- Number of Doors 1
- Interior Area 52 sq. ft.
- Peak Height 58"
- Body Material 70D Nylon Taffeta 1500mm
- Fly Material DAC Press Fit
- Poles 1 (Telescoping)

FEATURES

- Multiple Guy-Out Points
- Full Length Zippered Panel
- Unique 5 Joined Equilateral Triangle Design
- Adaptable Configuration Options

INNOVATIONS & FEATURES

Unique Equilateral Triangle Design

- Five joined equilateral triangles allow endless possibilities
- A Sierra Designs Innovation

Adaptability

- Any side, or "triangle", can be staked down at ground level to provide more coverage, or rolled up to allow easy access or more ventilation
- Pitch the tarp low for a larger footprint or higher for more headroom
- Save more weight by leaving the pole behind and use trekking poles instead

Full-Length Zippered Panel

- Long zippers allow our Origami Tarps to pitch in a variety of configurations

Solid Construction

- The solid construction of the Origami Tarps will prove to be the most versatile, adaptable, intelligently designed shelters on the market
- Withstands gusty winds and adapts to changing climatic conditions
